Spring/Summer 2017

Party Time!

28th June 1-5pm

Twenty years ago we transformed an old shop into Poppleton Dental Practice and to celebrate we are holding an open afternoon from 1-5pm on Wednesday 28th June 2017. We would love you to come and join in our celebrations as we have afternoon tea, cake and much more. There will be a raffle with many of the fabulous prizes donated by other local businesses, and all money raised will go to Macmillan and DentaId.

Everyone is welcome, patients and non-patients, to come and have a look around and meet the team. Why not bring a friend and make an afternoon of it? See our Facebook page for more information, or pop in to pick up a flyer and buy a raffle ticket in the meantime.

Retirement Time

At the end of March we were sad to see Sandra, our practice manager of over 10 years, retire. We had a lovely meal out at her favourite local Italian restaurant where she was presented with gifts from staff and patients. We hope she is having fun with her new found time, sewing and gardening, and doing some new courses too.

New Staff

We are delighted to introduce two new members of staff to our team here at Poppleton. Natasha, our trainee dental nurse, is working hard helping the team as well as undertaking her training at Leeds Dental Institute. Following Sandra's retirement Kelly has joined the practice as our new receptionist. She is new to the world of dentistry and is enjoying getting to grips with all things dental. Please say hello to Natasha and Kelly when you next come to see us.

New Website & Online Booking

Our new website has been up and running since December. We now have a new News section where you can find lots of information & updates about the practice. We also have a new online booking facility for anyone who would like to join the practice by simply following the Book Your Appointment Now - New Patient link. Our existing patients can now make their own examination and hygiene appointments by using the link added to their recall email or text message. There are still a few teething problems (sorry!) with the system, so if you are unable to find a suitable appointment please call or email us and Kelly will be happy to help.
